

Verifying Yohji Yamamoto Pieces

tags: [fashion yohji yamamoto](#)

What to Look For

Logos

The "Y" in the logo from older collections have a more rounded look whereas modern logos have sharper edges.

Anything before AW 1991, you will see the more rounded logo. Anything after SS 1992 features the sharper styled logo.

Sizing Tags

In prior years, the sizing tag on Yohji pieces featured lettered tags (S, M, L) while modern Yohji uses a numbered system now (1, 2, 3).

If the piece uses lettered sizing tag, it is most likely comes before AW 1999 collections. If it's numbered sizing, it's most likely after SS 2000.

Laundry Care Tags

The positioning of the laundry care icons on a piece's tags can also help identify when a piece was made.

If the laundry icons sit at the bottom of the tag, they come before AW 2016, if they sit at (or near) the top, they come after SS 2017.

Product Codes

The product codes on a given piece contain certain identifiers that indicate which brand the piece comes from or different seasons across different years.

The product code (and tag for that matter) is typically located on the right-side of most pieces (and also within pockets). The product code will be found on the tag.

Product codes feature a combination of letters and numbers in the following format:

HH-B69-009

[Clothing Line + Season] - [Clothing Type + Number + Number] - [Number + Number + Number]

Clothing Lines

Each letter here corresponds with a specific line under the Yohji Yamamoto umbrella.

H - Pour Homme

F - Femme

N - Noir

U - S'yte

G - Ground Y

Y - Y's

M - Y's for Men

L - Limi Feu

Season

Each letter here corresponds with a specific season. Some seasons have will have the same letter. There is no discernable formula to predict what the letter will be for a future season. This is where we'll refer to the laundry/size tags and logo to help make the distinction.

Clothing Type

The letter in the middle section of the product code identifies the clothing type. The following is a list of them:

- J - Jacket
- C - Coat
- B - Blouse/Shirt
- S - Skirt
- P - Pants/Trousers
- T - Top
- K - Knit
- E - Shoe

Type of Piece

The last two numbers of the middle section represent the type of cut/shape the piece is.

Material

The numbers in the last section represent the material the item is made from.

Things to Note

For S'yte, the letter describing the the season does not appear to match up with the chart provided. It could be the case the S'yte follows its own seasonal structure and is primarily sold online. All other parts of the product code are cohesive with S'yte and the other product lines.
